

Meritor Parts

Meritor Parts - Meritor is a premier international dealer which is proudly founded on a one hundred year custom of service and quality. They specialize in different integrated systems, modules and parts to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor values the needs of their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor encourages collaboration and innovation among a team of knowledgeable professionals.

By just hiring future focused workers, Meritor strongly believes these top-caliber people will be able to quickly adapt to changing environments and exhibit the commitment and performance needed to attain results in the competitive materials handling trade. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers all their staff various opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include axles, drivelines, suspension and braking systems used for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the requirements of their global engineering workers.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all over the globe in 19 nations and in 5 different continents.

They have their supplier network that is specifically situated to be able to support the development of the business. Each and every regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making in every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who use Six Sigma tools to business techniques and implement lean methods.
