

Clark Forklift Parts

Clark Forklift Parts - At present, there are no less than 350,000 Clark forklifts performing globally, and upwards of 250,000 in use in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specific parts built for 20 unique designs of lift trucks and automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark has a unyielding goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly facilities for the reason that this technique is extremely economical and permits minimal use of resources. Established to guarantee maximum efficiency, this system is intended to find and acknowledge the most efficient methods for manufacturing facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing expenses. The new value engineering agenda combines innovative product development and provides improved client support and service within the industry.
