

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment can automatically trigger to both dump and release whenever the bumper release touches the side of a dumpster. When unloading is finished, the hopper can return to original locked and upright position. This piece of equipment even comes together with a cable that enables operation from the seat of the forklift so as to have the alternative of manually dumping the hopper. There is a locking chain provided so as to secure the hopper to the fork truck. This particular product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish so as to maintain durability.
