

## Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since the year 1974, ELME Spreader AB is the largest independent spreader company all over the world. They have been a devoted maker of spreaders utilized for numerous applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in house by means of utilizing the newest CAD systems and FEM tools. The ELME business now employs more than one hundred twenty five staff members. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside around the globe.

The product series of ELME comprise numerous spreaders used for a variety of container and trailer handling operations. Several of their inventory include: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers as well as a huge variety of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose designed factory. In the year 2008, they created 1150 spreaders by using quality components to be able to guarantee reliability and excellent standards. Major features of ELME comprise design simplicity, market response and ground-breaking modular spreader concept.
