

Lull Telehandler Parts

Lull Telehandler Parts - Telehandlers by Lull have been supplying load placement precision ever since the year 1959. The Lull telehandler could help make the job easier and faster, whether the task requires transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are available with the patented Stabil-Trak stability system to ensure operator confidence.

The horizontal placement system by Lull could supply eighty inches of boom travel for precision placement functionality. There are even several optional Lull attachments for their telehandlers in order to help do whichever task.
