

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and components along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to exceed and meet their customers' expectations for technology, delivery, quality and service. They believe in working in an atmosphere which supports the highest integrity with empowered teamwork, combined with a unrelenting pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively utilizing principals of environmental stewardship and safety in how they do business. The company has put various programs in place in order to articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with any comments or questions, because they are happy to promote and share this policy with a greater understanding of their efforts. They are extremely dedicated to preserving and improving the environment. AxleTech has an EHS program which not just protects the natural environment but which even actively protects their employees and neighbors too.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles used for both commercial and military applications. These applications range from construction equipment to airport ground support. AxleTech specifically designs axles to be able to meet particular application demands. They have over 1000 different axle specs within their present offering. With over one hundred years of experience and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in various commercial and military applications. They offer complete axle assemblies utilized for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have added details that could be seen in the "ISAS" product collection.
